Provisonal figures.

1. Includes a small number of accounts which will not yet have been opened by either the parents or HMRC. This can be where the voucher has not yet expired, or for example where the child has died or emigrated before an account was opened.

#### Notes on tables:

1. These numbers do not fall under National Statistics. They are are based on Child Trust Fund (CTF) and Child Benefit (CB) administrative data. Account status information is taken from CTF endowment records as at 17 September 2009, CTF contribution and account balance information is taker from the annual provider returns of 5 April 2009 and CB from the June 2009 data.

2. These tables cover accounts open for all children born between 1 September 2002 and 5 April 2008.

WESTMINSTER PARLIAMENTARY CONSTITUENCY	Number of vouchers issued for children born on or before 5th April 2008.	Number of accounts opened by parents/guardians <sup>1</sup>	Number of Revenue Allocated Accounts.	% of accounts opened by parents/guardians				
3. The data used here shows figures for the number of vouchers issued and the proportion of them that were used to open an account by parents or guardians. This is consistent with the methodology used for national account opening rates which are published on a quarterly basis. This is a different methodology from that used in the annual Detailed Distributional Analysis where only accounts for children born by 5 April 2008 that were opened by 5 April 2009 are included.								
4. Please see the CTF Detailed Distributional Ana	alysis 2009 for complete te	echnical notes.	4. Please see the CTF Detailed Distributional Analysis 2009 for complete technical notes.
