Please read the extra notes on page 3 before you put an ‘X’ here.

If you've made a claim for one of these benefits, but are waiting to hear if you're going to get it, leave this box blank. Once you know that the benefit is going to be paid to you, let us know the date it will start straight away.

If you get one of these benefits on behalf of a child, leave this box blank. You will be asked about this in Part 2.

1.8 Subject to immigration control
You are subject to immigration control if:
• the Home Office says you can stay in the UK (known as ‘leave to enter or remain’) but only if you don’t claim some benefits, tax credits or housing help paid by the UK government (known as ‘recourse to public funds’), or
• you need permission to stay in the UK (known as ‘leave to enter or remain’) but you don’t have it.

If you are subject to immigration control, or you’re not sure if you are, you might still be able to get tax credits. Please phone our Helpline to ask us.

1.9 Do you usually live in the United Kingdom
This question is about the country you live in most of the time. The United Kingdom is England, Wales, Scotland and Northern Ireland. It does not include the Isle of Man or the Channel Islands.

It doesn’t usually matter if from time to time you go to other countries on holiday or for work.

If you do not usually live in the UK, you may still qualify for tax credits. Please phone our Helpline, or if you are living overseas, please phone 00 44 2890 538192.

Couples – enter details for you and your partner separately in the boxes provided.
1.11 If you have a disability
If you have a disability you may get extra Working Tax Credit – we call this extra amount the disability element. To get the disability element you or your partner must meet all three qualifying conditions.

**Condition 1** - usually work 16 hours or more each week.

**Condition 2** - have a disability putting you at a disadvantage in getting a job.

**Condition 3** - receive or have recently received a qualifying sickness or disability related benefit.

Pages 22 to 24 give full details of all these conditions.

Note: if you or your partner have made a claim for a qualifying sickness or disability benefit but are waiting to hear if it is due, leave box 1.11 blank. Once you know that the benefit is going to be paid to you, let us know the date it will start straight away.

1.12 If you (or your partner) receive the Highest Rate Care Component of Disability Living Allowance or Higher Rate of Attendance Allowance, and you qualify for Working Tax Credit, you can get the severe disability element of tax credits.
You can claim Child Tax Credit for a child until 1 September after their 16th birthday. You can also claim for a child who is between 16 and 20. They need to be in full-time non-advanced education or on an approved training course. There is more information on page 5.

**2.4 Help towards registered and approved childcare costs while you work**
You can claim help with childcare costs if you work 16 hours a week or more. You can get help for a child up to:
- the Saturday following 1 September after their 15th birthday, or
- the Saturday following 1 September after their 16th birthday if
  - the child is registered blind, or has been taken off the blind register in the last 28 weeks, or
  - you receive Disability Living Allowance for that child.
Before you put an ‘X’ in this box, please read the notes on page 5 carefully to make sure you qualify for this help.

**2.5 If you or your partner became responsible for your child on a date other than their date of birth.**
If the child has not lived with you since birth, you can only get Child Tax Credit:
- from the date the child started living with you, and
- from the date you became the person (or couple) with the main responsibility for that child.

If you share the care of the child with another person, please read the notes on page 5.

You are responsible for a child if they usually live with you. If you share responsibility for a child with someone who is not your partner, decide which of you has the main responsibility. That person should then claim Child Tax Credit for the child.

You are not responsible for a child if:
- the child claims tax credits in their own right
- they get Employment and Support Allowance, Incapacity Benefit, Income Support or Jobseeker’s Allowance in their own right
- they are looked after by a local authority
- they have been sentenced to more than four months in custody or detention.

**2.7 If this child is registered with your local Careers Service or Connexions Service**
If this child is registered with your local Careers Service or Connexions Service within the last 20 weeks, please enter the date that the child left full-time education.
Put ‘X’ in boxes that apply to this child

Help towards registered or approved childcare costs while you work
You can get help with your childcare costs if you and your partner work 16 hours a week or more, or one of you works and the other has a disability.

Registered or approved childcare
You can get help towards your childcare costs if the childcare provider is registered or approved. Registration and approval bodies include:
- Ofsted in England
- Care and Social Services for Wales
- Scottish Commission for the Regulation of Care in Scotland
- a Health and Social Services Trust in Northern Ireland.

If you use another type of childcare, such as an after school club, you may still get help. If you’re not sure if your childcare provider is registered or approved, or to find out if your childcare provider qualifies, please phone our Helpline or go to www.hmrc.gov.uk/leaflets/wtc5.pdf

Child disability elements
If your child has a disability you may get extra Child Tax Credit – we call this extra amount the child disability element. We may pay this if:
- Disability Living Allowance is paid for your child
- the child is registered blind, or has been taken off the blind register in the last 28 weeks.

If the Highest Care Component of Disability Living Allowance is paid for your child, we may pay the severe disability element of tax credits.

Note: if you have made a claim for Disability Living Allowance for a child but are waiting to hear if you’re going to get it, leave this box blank. Once you know that the benefit is going to be paid to you, let us know the date it will start straight away.

The date you became responsible for the child
Enter the date the child started to live with you. You may need to put a later date in box 2.5 if any of the following apply.
- You are a couple but only one of you was responsible for the child before. Enter the date the child started to live with both of you.
- You are fostering or adopting a child. Enter the date the child started to live with you. If the local authority (in Northern Ireland, the Health and Social Services Trust) is making payments to you for the child, please phone our Helpline.
- You are claiming tax credits as a single person, having been part of a couple.
- The child lived with someone else but has now come to live with you. Enter the date the child started living with you.

Children aged between 16 and 20
Full-time education
As long as they started, accepted or enrolled for, their current course before age 19, full-time education means the child is:
- at school or college (not at university)
- doing subjects up to and including A level, NVQ level 3 or Scottish Highers (not a degree)
- in lessons for more than 12 hours a week in term time.

A child still counts as being in full-time education if:
- they’re getting ready for exams
- they’re off sick but will come back when they’re better
- they’ve just finished a course and are registered to start another course next term.

If you’re not sure if the child is in full-time education, please phone our Helpline.

Approved training courses
- In England – Entry to Employment or Programme Led Pathways
- In Scotland – Get Ready for Work, Skillseekers or Modern Apprenticeships
- In Wales – Foundation Modern Apprenticeships, Skillbuild or Skillbuild+
- In Northern Ireland – Access or Training for Success: Professional and Technical Training.

The course mustn’t be part of a job. If you’re not sure if a training course is approved, please phone our Helpline.
2.8 Child Benefit reference number
Remember to put your Child Benefit reference number in box 2.8.

You can get up to 80% of the childcare costs you pay. There is a limit which means the most you can get is £140 a week for one child or £240 a week for two or more children. Read the notes on pages 4, 5 and 7 to make sure you qualify.

3.1 Name of childcare provider
Please read the notes on page 5 before you enter the full name of the carer or the childcare provider. If a relative provides your childcare you may not qualify, please read the extra notes on page 7.

3.2 Childcare provider’s address
Ask your childcare provider if you don’t know their full address.

3.4 Childcare provider’s registration or approval body
Ask your childcare provider which authority has approved or registered them. Registration and approval bodies include:
• Ofsted in England
• Care and Social Services for Wales
• Scottish Commission for the Regulation of Care in Scotland
• a Health and Social Services Trust in Northern Ireland.

3.5 Childcare provider’s registration or approval number
For you to get help with childcare costs, your childcare provider must be registered or approved. You should ask to see their letter or certificate to make sure their registration or approval is up to date. Ask your childcare provider for their registration or approval number.

3.7 Enter the average weekly amount you pay this childcare provider
Read the notes on pages 4, 5 and 7 to make sure you qualify. Use the examples on page 7 to work out the average weekly amount. If you pay the same amount every week, enter the amount you pay. If you need any help, please phone our Helpline.

3.8 If you or your partner are incapacitated, in hospital or in prison
Please read the notes on page 7 before you answer this question.

Couples – enter details for you and your partner separately in the boxes provided.
If your child is looked after by a relative
A relative could be your child's:
- parent
- grandparent
- aunt or uncle
- brother or sister
- step-parent.

You will not usually get help with the cost of childcare if your child is cared for by a relative. Please phone our Helpline if your child is cared for by a relative and that relative is a registered or approved childminder.

Enter the average weekly amount you pay this childcare provider
Only include costs that you actually pay yourself.
Do not include:
- any amount paid by your employer, in money or in vouchers
- any amount paid by a local education authority towards the cost of childcare for three or four-year-olds
- any amount paid by a government scheme, for example, the Upfront Childcare Fund.

3.1 If you pay childcare costs weekly and pay different amounts at different times (for example, you pay more during school holidays than term time)

Example 1
Ahmed usually pays £60 a week for registered childcare. However, in the school holidays (10 weeks in total) he pays £100 a week.
His total costs for 52 weeks are (£100 x 10) + (£60 x 42) = £3,520.
His average weekly costs are therefore £3,520 ÷ 52 = £68.

Example 2
Sarah does not pay for childcare during term time, but in the school holidays she pays a playscheme £110 a week to look after her son. She uses the scheme for two weeks in the Easter holidays, seven weeks in the summer holidays, one week at Christmas, and two half term holidays (one week each), making 12 weeks in total.
Her total costs for 52 weeks are (£110 x 12) + (£0 x 40) = £1,320.
Her average weekly costs are therefore £1,320 ÷ 52 = £26.

3.7 If you pay childcare costs monthly

Example 3
Carmen pays for registered childcare monthly but the amount she pays varies from month to month. In April she paid nothing and her other monthly payments in the last 12 months were:
- £200 a month for February
- October and December
- £600 a month for July
- and August
- £150 a month for the other six months
- £900
- £2,300
Carmen's average weekly costs are therefore £2,300 ÷ 52 = £45.

3.8 If you or your partner are incapacitated, in hospital or in prison
You can claim if only one of you works 16 hours a week or more and the other is currently receiving one of the following benefits:
- Disability Living Allowance
- Attendance Allowance
- Severe Disablement Allowance
- Incapacity Benefit at the short term higher rate or long term rate
- contribution-based Employment and Support Allowance (ESA) for 28 weeks or more, or Statutory Sick Pay (SSP) followed by contribution-based ESA for 28 weeks or more (see Note 2 on page 24)
- Industrial Injuries Benefit with Constant Attendance Allowance
- War Disablement Allowance with Constant Attendance Allowance or Mobility Supplement
- Council Tax Benefit or Housing Benefit with a Disability Premium or Higher Pensioner Premium
- a vehicle under the Invalid Vehicle Scheme.

You may also claim if one of you works 16 hours a week or more and the other is:
- an inpatient in hospital, or
- on remand, awaiting trial or sentencing, or
- serving a custodial sentence.
4.1 Do you currently do paid work?
Answer ‘Yes’ here if you or your partner are:
• doing work that you get paid for, including work as a self-employed person
• starting paid work in the next seven days.
Also answer ‘Yes’ if you or your partner are on leave, including:
• sick leave of 28 weeks or less
• maternity or adoption leave of 39 weeks or less
• paternity leave of two weeks or less.

4.2 Do you usually work in the United Kingdom?
This question is about the country you work in most of the time. It doesn’t matter if you sometimes go to other countries for work.
The United Kingdom is England, Wales, Scotland and Northern Ireland. It does not include the Isle of Man or the Channel Islands.

4.3 How many hours a week do you usually work?
Please read the notes on page 9 before you answer this question. It doesn’t matter if you’re off work at the moment – it’s your usual hours we need.

Couples – enter details for you and your partner separately in the boxes provided.
How many hours a week you usually work

If you're an employee (you work for someone else)
Enter the number of hours you work in a normal week. Include any overtime you do every week.
If you have more than one job, add all the hours together.

If you're self-employed (you work for yourself)
Enter the number of hours you work in your business in a normal week.

If you work different hours at different times of the year
Enter the number of hours a week you are working at the moment. Let us know if your hours change or if you start working or stop working completely.

If you only work in school terms
Enter the number of hours a week you usually work in school terms.

Use the examples on page 10 to help you.

If you're on sick leave
Enter the number of hours you usually worked before you went on sick leave. You can claim Working Tax Credit while you are on sick leave if your usual hours are 16 hours or more a week (if you are responsible for a child, have a disability or are entitled to the 50-plus element), or 30 hours or more a week (in all other cases), and you are receiving one of the following benefits:
- Statutory Sick Pay
- Short Term Incapacity Benefit at the lower rate
- Income Support paid on the grounds of incapacity for work
- Employment and Support allowance
- National Insurance credits on the grounds of incapacity for work or limited capability for work.

If you're on paid maternity, paternity or adoption leave
Enter the number of hours you usually worked before your paid maternity, paternity or adoption leave started.

If you're suspended from work
Enter the number of hours you usually worked before you were suspended.

If you're on strike
If you've been on strike for less than eleven days, enter the number of hours you usually worked before you went on strike.
You can only get Working Tax Credit for the first ten days of your strike. If your strike goes on longer than ten days, please tell us straight away. You can't make a new claim for Working Tax Credit until you've gone back to work.

If you've left your job but are still getting paid
If you've left your job but are still getting paid because you weren't given enough notice, you don't count as being in work. So your usual hours are zero.
Phone our Helpline if you've recently finished work but intend to start a new job soon.
Example 1 – taking time off
Jim usually works 28 hours a week. This week he took two days off unpaid and only worked 17 hours. But he expects to work 28 hours next week, and each week for the foreseeable future. So his usual hours are 28 hours a week.

Example 2 – regular overtime
Bill is contracted to work 25 hours a week. This week he has also done 10 hours of overtime. Last week Bill did no overtime at all, but most weeks he does five hours of overtime.
His usual hours are therefore 30 hours a week, made up of the 25 hours a week he is contracted to work and the five hours overtime he usually does each week. The fact that in the last couple of weeks he has not worked exactly 30 hours does not matter.

Example 3 – different hours every other week
Sue works 14 hours one week and 18 hours the next. This hardly ever changes. To work out her usual weekly hours Sue should look at the average number of hours she works over her regular two-week cycle.
Her usual hours are 16 hours a week. This is worked out as follows.
Add together the hours worked 14 + 18 = 32.
Divide 32 by 2 (the number of weeks) = 16.

Example 4 – going back to work after being unemployed
Vijaya has not worked at all for the last 10 years. She started a new job last week, working 20 hours a week. Her usual hours are therefore 20 hours a week. The fact that she only started last week does not alter the fact that she now usually works 20 hours a week.

Example 5 – working for part of the year only
Julie usually does 35 hours work a week for three months each summer. She can claim Working Tax Credit during this three-month period but when she finishes this seasonal work, her Working Tax Credit will stop, unless she gets another job within a week of finishing.
If she does get another job and her usual hours are less than 30 hours a week, she must tell us about the change within one month. If she does not get another job she must tell us within one month that she has stopped working.
She cannot get Working Tax Credit until the next period in which her usual hours of work are high enough for her to qualify again.

Example 6 – working term time only
Mary works as a school dinner lady for 18 hours a week during term time. Her usual working hours are therefore 18 hours a week. It does not matter that she does not work at all in the school holidays, because these holidays are part of her regular annual working cycle and do not count in the calculation of usual working hours.

If you have more than one separate paid job, put the number. For example, if you had a day job and a part-time evening job as well, you would enter 2.
Don't include self-employed jobs.

  – you started work in the last two weeks, or

6.1 Choose how often you want us to pay you Child Tax Credit
If you are on Income Support or income-based Jobseeker’s Allowance, Child Tax Credit replaces part of those benefits. You will need to decide if you still want your payments weekly.

6.2 Couples only – which of you is the main carer?
If you are claiming as a couple, decide who is the main carer. If only one of you is working, the person at home with the children will usually be the main carer.

6.4 Couples who both work 16 or more hours a week.
We can only pay Working Tax Credit to one of you. So you need to say which one of you we should pay.

If you are a couple who qualify for help with childcare costs, the childcare element of Working Tax Credit will always be paid to the person receiving Child Tax Credit.
Page 10 of your claim form

Please fill in your account details carefully. If they are wrong your payments will be delayed.

6.5 Name(s) of account holder(s)
Enter the name of the account exactly as it is shown on your statements, passbook or cheque book. If it is a joint account, make sure you enter both names.

If you want to use an account that is not in your name, for example, your partner or another person, you may do so. But it is up to you to make sure you get the money from that person.

6.7 Branch sort code
Make sure you enter the sort code shown on your card or statements from your bank or building society.

6.6 Account number
Your account number is usually eight digits and is shown on your statements or cheque book. Please include any zeros - for example, 00123456.

If your account number is longer than eight digits it may be because your account is with a building society or bank that used to be a building society.

If you do not have an account, you will need to open one. If you are unable to open or use any type of account, please phone our Helpline.

Couples - don't forget to fill in both sides of this section, even if the bank account is the same.

6.8 Roll or reference number
If your account is with a building society - or a bank that was a building society - you may have an additional reference number.

This number may be called:
- a roll number,
- an account reference,
- an account number.

If you are not sure which numbers to enter check with your bank or building society.
Please make sure you sign and date the Declaration. If you forget it may take longer to pay you.

If you are claiming as a couple, both of you need to sign and date the claim.

**You are an Appointee if you have**
been appointed to act by one or more of the following:
- a court of law
- the Department for Work and Pensions
- the Department for Social Development
- us, when you have made a previous claim for the person(s) claiming.

Please tell us the date you were appointed and who appointed you.

If you are acting as Appointee for the first time, please explain why the person who is claiming cannot complete and sign the form. We will then consider whether to appoint you. Before we make our decision, we may need to contact you for more information.

You are not an Appointee if you are simply
helping someone to complete the form and they understand what you are doing. For example, you might help someone to fill in the form because:
- you work in a welfare rights organisation such as Citizens Advice, or
- you are helping them as a friend, or
- you are translating the questions into another language for them because they speak and understand very little English.

If the person claiming understands the Declaration and is able to sign it then they should do so.
To make sure the tax credits system is working for everyone it would help if you tell us your ethnic group. You don't have to tell us if you don't want to.

If you don't want to tell us your ethnic group, please put 'X' here.
Do you qualify for the disability element of Working Tax Credit?
If you meet all of the following three conditions you may qualify for more Working Tax Credit.

**Condition 1**
You usually work for 16 hours or more a week.

**Condition 2**
You have a disability that puts you at a disadvantage in getting a job.
At least one of the following descriptions must apply to you.

We may ask for the name of someone involved in your care, like an occupational therapist, community nurse, district nurse or doctor, who can confirm how your disability affects you.

**Physical disability**
- When standing you cannot keep your balance unless you continually hold on to something.
- You cannot walk a continuous distance of 100 metres along level ground without stopping or without suffering severe pain - even when you use your usual walking aid, such as crutches, walking frame, walking stick, prosthesis or similar.
- You cannot use either of your hands behind your back, as if you were putting on a jacket or tucking a shirt into trousers.
- You cannot extend either of your arms in front of you, as if you were shaking hands with someone, without difficulty.
- You cannot, without difficulty, put either of your hands up to your head, as if putting on a hat.

**Visual impairment**
- If you live in England or Wales – you are registered as blind or partially sighted on a register compiled by a local authority.

- You cannot see to read 16-point print at a distance greater than 20 centimetres, even if you are wearing your usual glasses.

This is 16-point print. Can you read this at a distance greater than 20 centimetres?
You cannot normally sustain an eight-hour working day or a five-day working week, due to a medical condition or intermittent or continuous severe pain.

As a result of an illness or accident, you are undergoing a period of habilitation or rehabilitation. This does not apply to you if you have been getting a disability element of Working Tax Credit in the past two years.
