**NOTES**

1. These numbers do not fall under National Statistics. They are based on an extract from the CTF computer system on 20 September 2007.

2. The data used here shows figures for the proportion of expired vouchers that were used by parents to open an account. This is consistent with the methodology used since the beginning of the year for national account-opening rates, which are published in a quarterly basis. The

**Child Trust Fund: Accounts opened  
by Westminster Parliamentary Constituencies**

| WESTMINSTER PARLIAMENTARY<br>CONSTITUENCY | Vouchers issued to<br>children born on or<br>before 5th April 2006 | Number of<br>accounts opened<br>by<br>parents/guardians | Number of Revenue<br>Allocated Accounts | % of accounts<br>opened by<br>parents/guardians |
|---|--|---|---|---|
|---|--|---|---|---|

overall account-opening rate of 75.7% is higher than that reported in the constituency breakdown published in January 2007. This is largely because the data in January showed the the numbers of accounts opened by parents as a percentage of vouchers issued, including those yet to expire. Clearly, a proportion of these will subsequently have been used by parents to open accounts. In compiling the constituency table published here, we have therefore used data only on children whose voucher had expired, where their parents have had the full twelve months to open an account.

3. The Constituency Data is based on the same population of children as the Detailed Distributional Analysis (DDA), that is to say those born on or before 5th April 2006. However the cases used in the DDA necessarily exclude those that have not opened an account by 5th April 2007, as the analysis is done by matching our data with CTF providers' returns of that date. As such, it will exclude cases of children born late in the financial year 2005-06 whose parents have not yet used the voucher or, more commonly, where HMRC has not had time to allocate an account when a voucher has expired. Thus the proportion of accounts that were taken up by parents in the DDA is slightly higher than the proportion reported here.
